

CONTENTS

Foreword	ix
Preface	xi
Multiple viscous profile Riemann solutions in mixed elliptic-hyperbolic models for flow in porous media	1
<i>A.V. Azevedo and D. Marchesin</i>	
On the loss of regularity of shearing flows of viscoelastic fluids	18
<i>Bernard D. Coleman</i>	
Composite type, change of type, and degeneracy in first order systems with applications to viscoelastic flows	32
<i>Pamela Cook, G. Schleiniger and R.J. Weinacht</i>	
Numerical simulation of inertial viscoelastic flow with change of type	47
<i>M.J. Crochet and V. Delvaux</i>	
Some qualitative properties of 2×2 systems of conservation laws of mixed type	67
<i>H. Holden, L. Holden and N.H. Risebro</i>	
On the strict hyperbolicity of the Buckley-Leverett equations for three-phase flow	79
<i>Lars Holden</i>	
Admissibility criteria and admissible weak solutions of Riemann problems for conservation laws of mixed type: a summary	85
<i>L. Hsiao</i>	
Shocks near the sonic line: a comparison between steady and unsteady models for change of type	89
<i>Barbara Lee Keyfitz</i>	
A strictly hyperbolic system of conservation laws admitting singular shocks	107
<i>Herbert C. Kranzer and Barbara Lee Keyfitz</i>	
An existence and uniqueness result for two nonstrictly hyperbolic systems	126
<i>Philippe Le Floch</i>	

Overcompressive shock waves	139
<i>Tai-Ping Liu and Zhouping Xin</i>	
Quadratic dynamical systems describing shear flow of non-Newtonian fluids	146
<i>D.S. Malkus, J.A. Nohel and B.J. Plohr</i>	
Dynamic phase transitions: a connection matrix approach	164
<i>Konstantin Mischaikow</i>	
A well-posed boundary value problem for supercritical flow of viscoelastic fluids of Maxwell type	181
<i>Michael Renardy</i>	
Loss of hyperbolicity in yield vertex plasticity models under nonproportional loading	192
<i>David G. Schaeffer and Michael Shearer</i>	
Undercompressive shocks in systems of conservation laws	218
<i>Michael Shearer and Stephen Schecter</i>	
Measure valued solutions to a backward-forward heat equation: a conference report	232
<i>M. Slemrod</i>	
One-dimensional thermomechanical phase transitions with non-convex potentials of Ginzburg-Landau	243
<i>Jürgen Sprekels</i>	
Admissibility of solutions to the Riemann problem for systems of mixed type -transonic small disturbance theory-	258
<i>Gerald Warnecke</i>
