Institute for Mathematics and its Applications

Career Options for Women in the Mathematical Sciences

IMA Special Workshop
March 3-5, 2013

Organizers:

Georgia Benkart (University of Wisconsin-Madison)
Erica Klampfl (Ford)
Irina Mitrea (Temple University)
Evelyn Sander (George Mason University)
Cheri Shakiban (University of St. Thomas and IMA)

Description:
Aimed at graduate students and Ph.D.s in the early stages of their post-graduate careers, this workshop will connect women in the mathematical sciences with professional opportunities in academics, industry, and government labs. In addition, special panel discussions will cover the interviewing process, and the principles of negotiation.

Speakers, panelists, and discussion leaders are women in research and management positions in industry and government labs as well as women in academia. Participants are encouraged to present a poster on their research.

This workshop is sponsored by the IMA and the Association for Women in Mathematics (AWM).

 Speakers:

Gloria Mari Beffa (University of Wisconsin-Madison)
Donatella Danielli (Purdue University)
Laurie Derechin (University of Minnesota)
Ankur Ganguli (Eaton Corporation)
Barbara Lee Keyfitz (Ohio State University)
Erica Klampfl (Ford)
Kathryn Leonard (California State University, Channel Island)
Loredana Lanzani (University of Arkansas)
Laura Lurati (Boeing)
Svitlana Mayboroda (University of Minnesota)
Catherine (Katy) A. Micek (The Travelers Companies, Inc.)
Susan Minkoff (University of Texas at Dallas)
Jill Pipher (Brown University)
Pamela J. Williams (LMI Research Institution)
Carol S. Woodward (Lawrence Livermore National Laboratory)
